

# Mi9 Store Portal

A feature-rich module that has been designed to carry out inventory functions, price change reports, and more.

## Intelligent Inventory Management

Designed for complex inventory and high SKU volume to address the transaction processing needs of retailing, the Mi9 Store Portal module has been finely honed to deliver maximum throughput, reliability, and integrity of data no matter how large the volumes being processed.

## Powerful Device-Agnostic Solution

Mi9 Store Portal allows store users to manage their inventory in real-time, on the device of their choice, anytime and anywhere throughout the enterprise.

## Superior Customer Experience

Mi9 Store Portal gives store users the tools they need to pinpoint and fix errors right at their fingertips. For instance, if sales associates disagree with a stock level displayed on screen, they can make an inquiry to view the SKU transaction history, and easily correct the discrepancy.

## Flexible Design

Mi9 Store Portal allows for increased visibility and real-time views of merchandise across omni-channel architectures and mobile platforms.

**The Mi9 Store Portal is a feature-rich module of Mi9 Merchant that has been designed to carry out inventory functions, price change reports, and more.**

The Mi9 Store Portal offers a convenient and secure web-based portal tied directly to the corporate system allowing stores to enter and confirm inventory transactions such as purchase order receipts, transfer shipments, receipts, returns to vendor, inventory adjustments, physical inventory, and cycle counting, all in real-time.

What's more, this integrated module works with up-to-the-minute omni-channel data to maximize the efficiency of retailers' operational processes.
