### CENTRALIZED REAL-TIME DATA

A centralized, real-time view of inventory, orders, and customers ensures accurate unified data for your consumers.

### ENDLESS AISLE

View inventory levels in real time across your enterprise with product images and details.

### SEAMLESS EXPERIENCES

Provides associates with data and tools to personalize and enhance customer engagement at every stage of the sale.

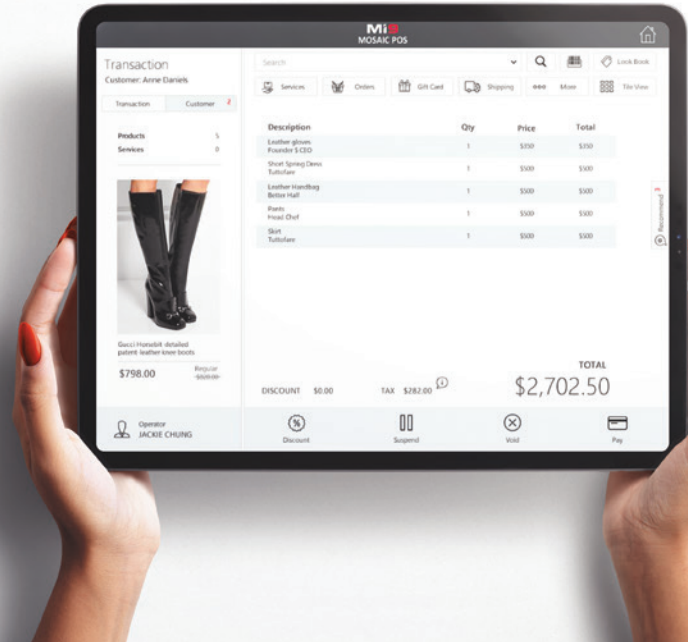

### CLOUD FREEDOM

Benefit from a predictable cost structure and shift responsibility for server infrastructure, security, vulnerability and issue management away from your in-house IT, and turn capital expenses into operating expenses.
